Nationally Recognised Code & Title

SHBBSKS003 Design and provide cosmetic tattooing.

Course Summary

Cosmetic Tattooing also known as permanent makeup has increased rapidly in recent years as more and more women seek to enhance their natural features with less fuss. Cosmetic tattooing is most commonly used to define eyebrows, define and bold eyeliner, enhance lip liner.

This course aims to accredit candidates with the nationally recognised qualification (Statement of Attainment) 'SHBBSKS003 Design and Provide Cosmetic Tattooing' and provide the skills and knowledge required to penetrate the skin with pigments in order to achieve cosmetic tattoos on the face and body.

This unit applies to beauty therapists who work in beauty salons. In this environment they exercise judgment in selecting tattoo designs; demonstrate maturity and confidentiality in their client interactions, and apply knowledge of skin biology and skin penetration infection control procedures.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Some states and territories require businesses that provide skin penetration procedures to be registered with local councils.
